

PE and Sports Premium Report 2021-22

The PE and Sport Premium is funding in addition to the school's budget. Schools are free to decide how to allocate this funding to extend the range of sporting and physical opportunities experience of Moorside pupils. In 2021/2022 the school received **£16,000** and in 2022/2023 it is anticipated that the school will also receive **£16,000**.

Participation

At Moorside there is opportunity for children to access at least 1 club per night throughout the year, all of which are completely free, with the exception of the Activ8 club. Some of these are run by the staff at school (Football, Athletics, Netball, Rounders & Cricket) Due to the government funding (**£3,570**) we have been able to offer a wider range of sporting opportunities and we are extremely pleased with the variety of clubs that we offer, which include football for both boys and girls in KS2 run by Morecambe FC, Dodgeball, Pop-Lacrosse, Hockey & Tag-Rugby, all of which are very well attended throughout with minimal drop-out rates, due to the high quality of coaches and commitment of the children.

In addition to these thriving clubs the school have used funding (**£3,120**) to add variation within the curriculum, through using a highly qualified PE practitioner. These opportunities have included Street Dance & Circuit training (MFC Gym Stars) and are certainly enjoyed by the children.

The school has also supported Outdoor Adventurous activities with transportation (**£1200**) allowing all children to access the Y4 Grizedale Forest visit and to take part in caving activities as part of the Y3 curriculum.

CPD & Schools Sports Network

Membership of the Lancaster and Heysham Schools Sports Network has been renewed for the 12th consecutive year (**£2,235**), offering access to a range of coaches, staff training throughout the year, sports festivals and events, conference fees and a network of sports specialists to help support the delivery of high quality PE throughout the local area.

Entry to the Lancaster Schools Sports Association Competitions (**£100**) gives the children the opportunity to compete against other schools in a competitive environment, developing their understanding of healthy competition.

During curriculum time specialist coaches (**£2800**) have been accessed to upskill the accompanying staff with the aim of these coaches costs not being required in the future with the teachers feeling more secure to deliver these seasons having developed their

confidence and competence. These sports have included Tag-Rugby, Hockey, Cricket & Multi-Skills.

Competition

Entrance fees and coach costs (£160) have been covered using the Sports Premium once again allowing the children to take part in higher level competitions, with the hope of representing the Lancaster District at the Spar Lancashire Schools Games in Blackpool and the entire Y6 attending the local Sports Festival, competing in over 10 different events as part of an Olympics style event run by the local School Sports Network.

Equipment & Sports Kit

8 benches, 20 gym mats, a balance bench, 4 nesting tables (of various sizes) and smaller basic gymnastic equipment has been updated to add towards the challenge for children when engaged with apparatus in PE (£4280). New sports kits have been bought (£2200) to give the sense of team spirit required in undertaking sporting events and with the school expansion it has enabled us to add B, C, D & E teams to local Sporting Events.

(£500) was used to buy a range of resources to fund active playtimes.

Provision and General Impact

The Sports Premium funding has allowed the school to support all the children and improve the quantity, quality and range of PE and Sport provision provided throughout the year. With increased funding in 2021-22 we are now capable of adding extra dimensions to our existing offer to pupils so that all have the opportunity to develop a healthy lifestyle and reach their true potential.

In the academic year 2021-22, the school planned to run clubs which covered 13 different sports, with the exception of the Activ8 club, all being free to pupils, often through the expertise and commitment of our own staff and the time that they give up. The hope is that 100% of Y6 children will represent the school in at least one sporting competition, with many of these children taking part in numerous competitions throughout the year. Last year due to COVID restrictions the after-school clubs were affected, but we still managed to run Y6 Football, Y6 Indoor Athletics, Y5 Tag-Rugby, Y5 Netball and were victorious in the Y6 Korfball Competition, where without COVID 19, Moorside would have represented Lancashire in the National Finals in the Olympic Copper Box Stadium.

Free school based clubs included:

Football, Athletics, Tag-Rugby, Multi-Skills, dance, Netball, Pop-Lacrosse, Rounders, Korfball, Dodgeball and Tri-Golf. In addition to these children have had the opportunity to compete in cricket, orienteering, mini-tennis, cross-country and swimming. In many cases we enter multiple teams of varying ability. Participation in sport is celebrated via the newsletter, our website, the local press where appropriate and we are in the process of producing an honours board to celebrate past successes, which will be added to in the future.

For its work with PE and Sport, the school was recognised with 2nd place as 'Lancaster School of Sport' for the year, having won the previous year. The school also achieved the Sainsbury's Games Gold Award for the third successive year.

Underpinning our work is our desire to build capacity and expertise so that we are able to teach a more diverse range of sports ourselves so that the impact and gains are sustainable.

Looking Ahead

- Although our clubs are well attended, we want to increase the number of different children who attend at least one sports club in a year so that we manage to involve even the 'hard to reach' children.
- Add a variety of clubs to our already established comprehensive list (eg. Archery, Street-Dance, Quidditch) using Sports Premium funding to support with the conducting of these.
- Set up an orienteering course within the school grounds to support and develop geographical skills and add awareness of the locality.
- Develop a sense of healthy lifestyle with whole school initiatives such as: walk to school Wednesdays, Bikeability, Apparatus Clubs).
- Add cross-curricular links through the addition of Maths of the Day. A maths program that is designed to incorporate and embed key skills throughout mathematics, whilst engaged within physical activity.
- To take up a MOORFS (PTA) suggestion to be part of the 'UK School Run' where the children will gain sponsors to work towards a grand total of running 26 miles.
